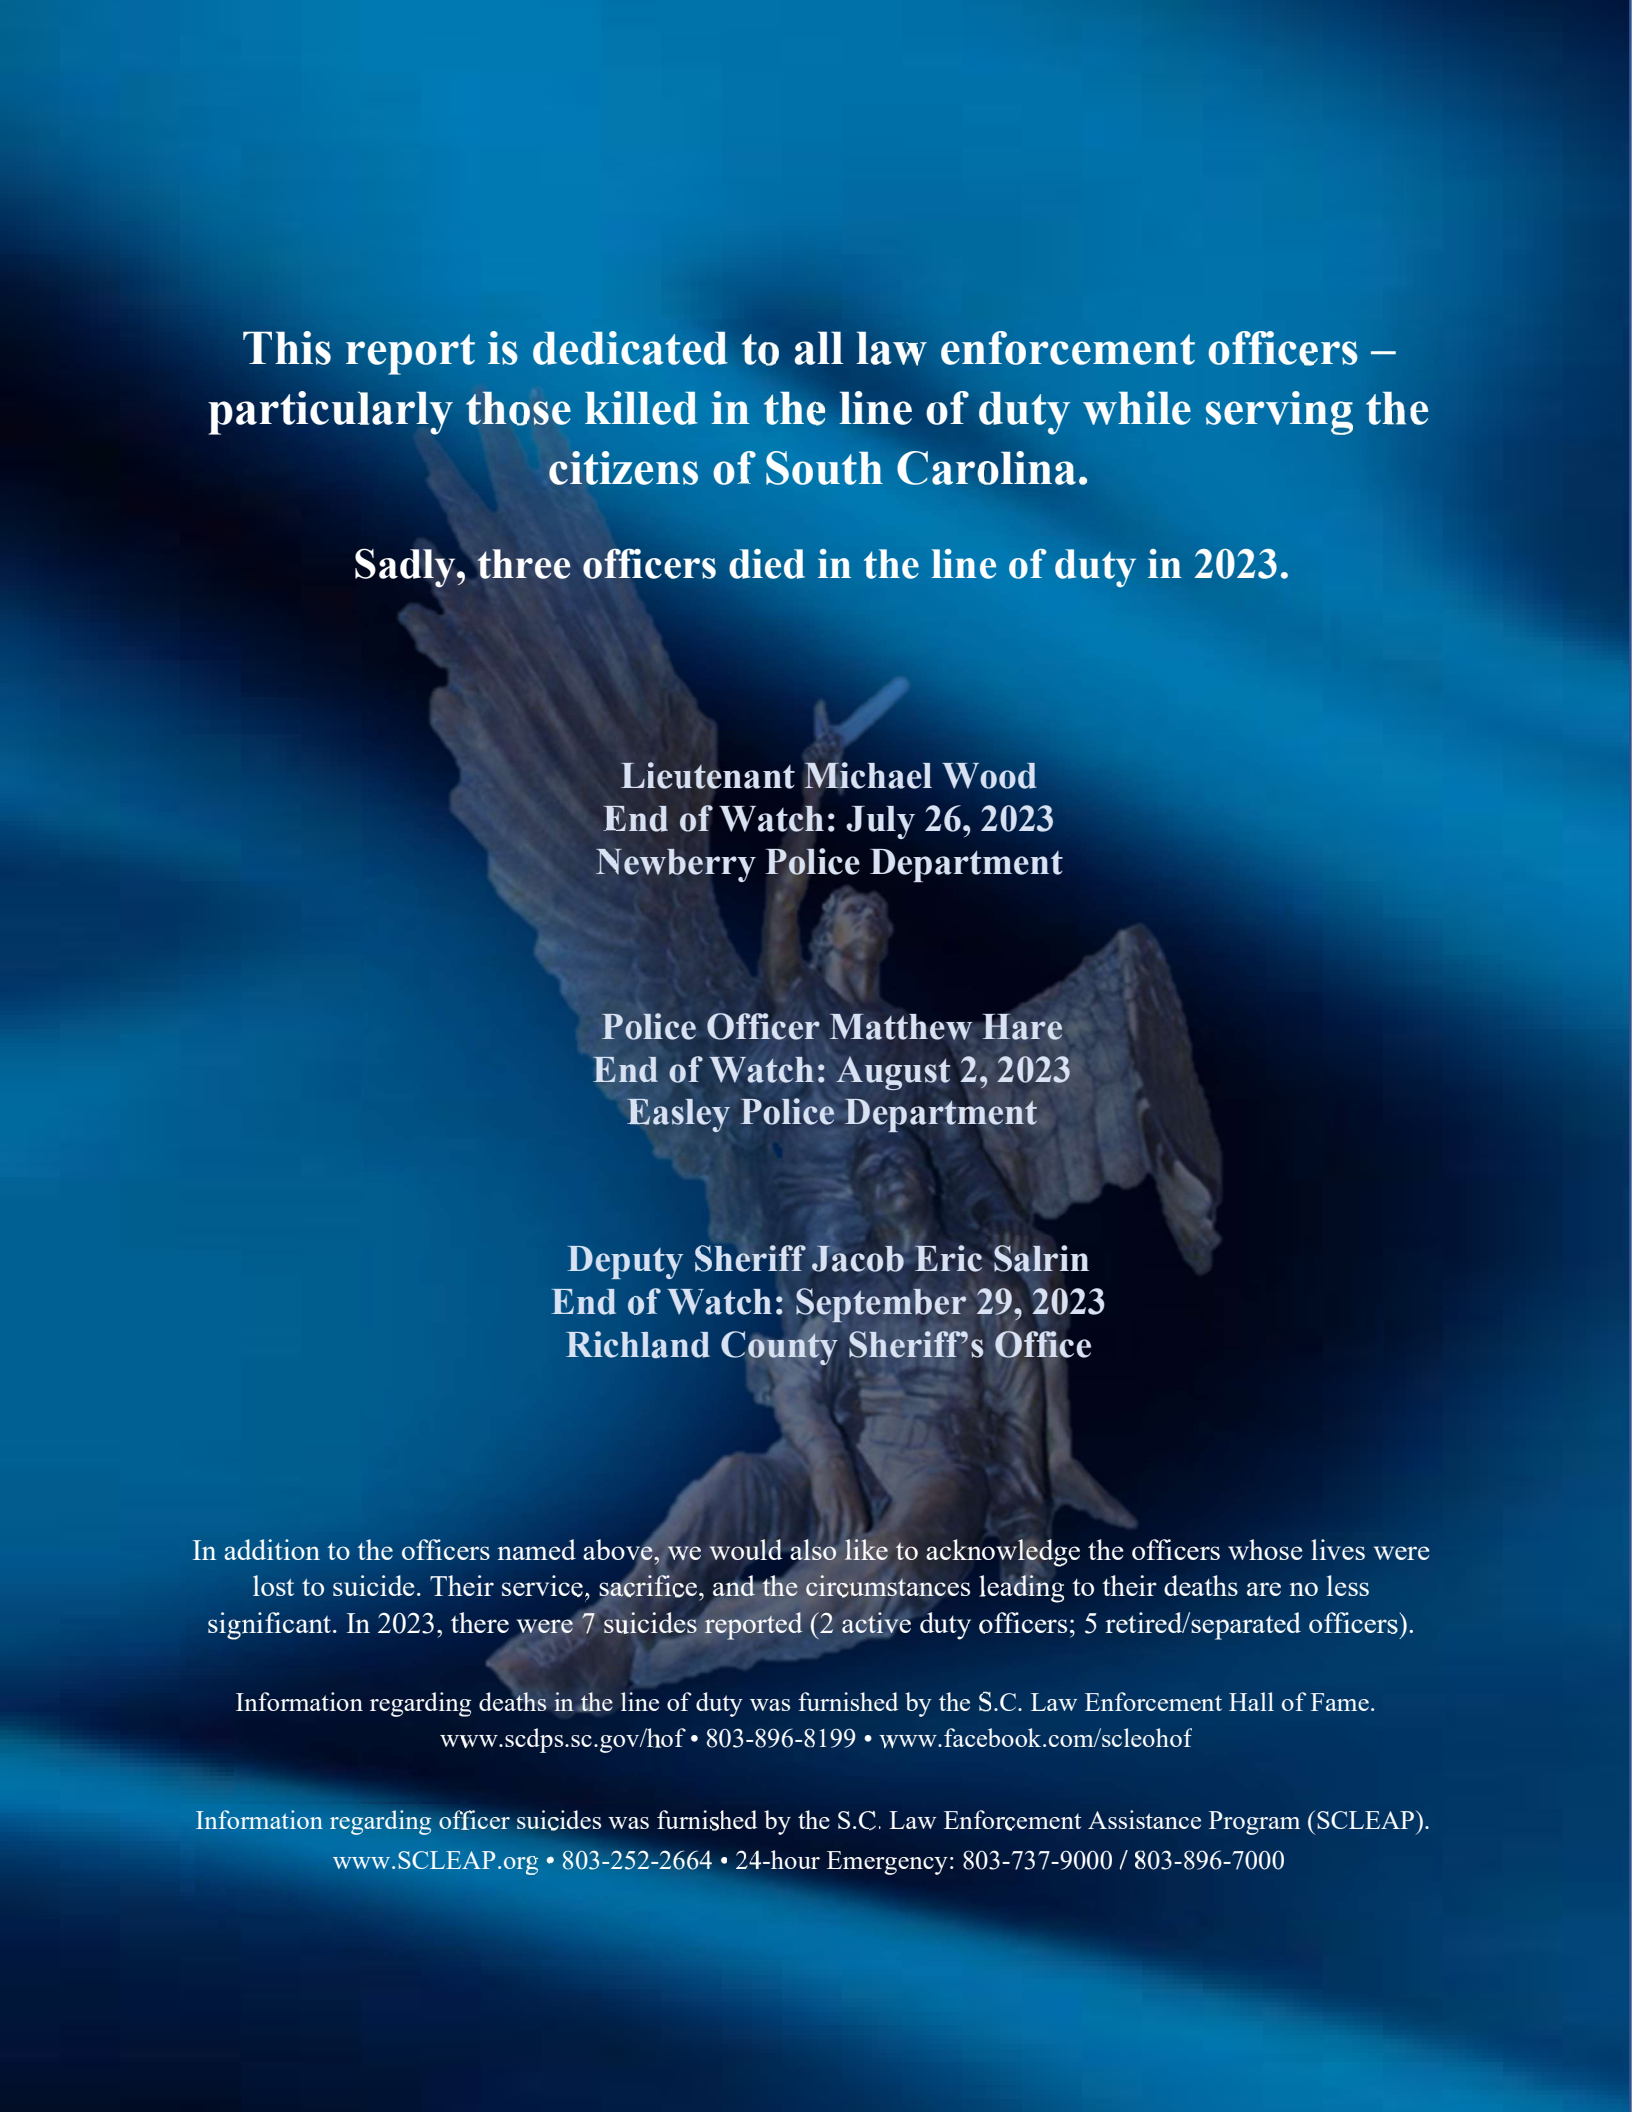
Geographic Information Service (CCIS - GIS) Unit
Linda Fipps, *Statistical Research Analyst II (Author)*
James Kennedy, *Program Coordinator*
South Carolina Incident-Based Reporting System (CCIS - SCIBRS) Unit
Alea Washington, *Program Coordinator*
Brittany Moore, *Auditor/Trainer*
Emily Marcin, *CJI Analyst I*



This report is dedicated to all law enforcement officers – particularly those killed in the line of duty while serving the citizens of South Carolina.

Sadly, three officers died in the line of duty in 2023.

Lieutenant Michael Wood
End of Watch: July 26, 2023
Newberry Police Department

Police Officer Matthew Hare
End of Watch: August 2, 2023
Easley Police Department

Deputy Sheriff Jacob Eric Salrin
End of Watch: September 29, 2023
Richland County Sheriff's Office

In addition to the officers named above, we would also like to acknowledge the officers whose lives were lost to suicide. Their service, sacrifice, and the circumstances leading to their deaths are no less significant. In 2023, there were 7 suicides reported (2 active duty officers; 5 retired/separated officers).

Information regarding deaths in the line of duty was furnished by the S.C. Law Enforcement Hall of Fame.
www.scdps.sc.gov/hof • 803-896-8199 • www.facebook.com/scleohof

Information regarding officer suicides was furnished by the S.C. Law Enforcement Assistance Program (SCLEAP).
www.SCLEAP.org • 803-252-2664 • 24-hour Emergency: 803-737-9000 / 803-896-7000

Statewide Trends

South Carolina's violent crime rate decreased by 5.8% from 2022 to 2023.

This decrease is the third consecutive yearly decrease.

South Carolina's murder rate decreased by 5.9% from 2022 to 2023.

The overall number of murders decreased by 4.3%.

South Carolina's sexual battery rate decreased by 8.8% from 2022 to 2023.

Sexual battery in S.C. is at its lowest rate in comparison to the last 30 years.

South Carolina's robbery rate decreased by 3.3% from 2022 to 2023.

The robbery rate continues its 7-year decline, achieving the lowest rate in the last 30 years.

South Carolina's aggravated assault rate decreased by 5.7% from 2022 to 2023.

2023 saw a 5-year trend increase of 2.5% from 2019 to 2023 for aggravated assaults.

South Carolina's property crime decreased by 6.1% from 2022 to 2023.

This decrease is the twelfth consecutive yearly decrease.

South Carolina's B&E rate decreased by 9.6% from 2022 to 2023.

This decrease is the twelfth straight yearly decrease.

South Carolina's motor vehicle theft rate slightly increased by 0.3% from 2022 to 2023.

2023 saw a 5-year trend decrease of 10.8% from 2019 to 2023 for motor vehicle thefts.

South Carolina's larceny rate decreased by 6.5% from 2022 to 2023.

This decrease in SC's larceny rate continues the downward trend seen over the last twelve years.

South Carolina's arson rate increased by 1.9% from 2022 to 2023.

A 10-year trend shows a 9.6% decrease in arson rate from 2014 to 2023.

Weapon Law Violations increased by 1.8% from 2022 to 2023.

2023 marks ten straight years of increases in the rate of weapon law violations. 90.8% of weapon law violations included firearms (at least 75.1% were identified as handguns).

The rate of drug law violations decreased by 3.2% from 2022 to 2023.

The most common drug type in 2023 was marijuana (50.9), followed by stimulants (19.0%).

The number of assaults by intimate partners decreased by 0.5% from 2022 to 2023.

The number of law enforcement officers physically assaulted increased by 17.5% from 2022 to 2023.

Responding to a Disturbance was the most frequent officer activity reported for LEOKA victims of aggravated assault, simple assault, and intimidation.

Zero law enforcement officers were murdered in the line of duty in 2023. Eleven were reported in the last ten years.

From 2014 to 2023, the most common type of law enforcement action preceding the murder of an officer was responding to a disturbance and investigating suspicious person(s).

Statewide Crime Rate Trends

The crime rates below are calculated per 10,000 units of county population.

Highest Violent Crime Rates

Orangeburg	143.20
Allendale	122.13
Dillon	119.14
Darlington	103.50
Marlboro	93.37

Lowest Violent Crime Rates

Edgefield	7.97
McCormick	15.09
Abbeville	20.05
Pickens	21.33
Cherokee	25.57

2023 Law Enforcement Agencies Participating in SCIBRS

Of the 277 active law enforcement agencies in South Carolina, 204 reported SCIBRS data for all 12 months of 2023 (**Fully Compliant**). 63 agencies are missing anywhere from one to all 2023 SCIBRS submissions (Not Compliant). The remaining 10 agencies have submitted anywhere from one to all 12 months of SCIBRS data, but due to errors with their Record Management System were *unable to fully report* all qualifying incidents.

Law enforcement agencies are subjected to FBI NIBRS testing to ensure NIBRS/SCIBRS compatibility and compliancy. Newly active agencies who have not completed that process are not included as active agencies eligible to submit to SCIBRS and are thus not represented in this publication.

Introduction

The 2023 edition of *Crime in South Carolina* seeks to publish non-biased crime statistics and trends as well as provide crime data at the county level for the most recent year available. The data presented here is collected by South Carolina's Uniform Crime Reporting (UCR) program for the purpose of law enforcement administration, operation, and management. This publication aims to provide a complete and reliable picture of crime in South Carolina to better inform policymakers, criminal justice practitioners, researchers, and the public.

The first half of *Crime in South Carolina* is comprised of a comprehensive analysis of detailed incident data for nineteen Group A offense categories, encompassing a total of thirty offenses and emphasizing the eight index offenses of murder, sexual battery, robbery, aggravated assault, breaking and entering, motor vehicle theft, larceny, and arson. The first four index offenses are categorized under violent crime, and the latter under property crime. The rest of the Group A offenses are presented based on their classification as Crime Against Persons, Crime Against Property, or Crime Against Society. The second half of this publication displays arrest data representing fifty-one Group A offenses in addition to nine lesser Group B offenses for which only arrest data is collected. Additional chapters provide insight into the prevalence of family and intimate violence in South Carolina as well as Law Enforcement Officers Killed and Assaulted (LEOKA).

All data is based on the incident and arrest reports submitted monthly by state and local law enforcement agencies to the South Carolina Law Enforcement Division (SLED). All law enforcement agencies are mandated under South Carolina's Code of Laws to report to SLED all criminal data and related information within their respective jurisdiction (S.C. Code Ann. § 23-3-120, S.C. Code of Reg. 73-30)[1]. SLED maintains these records in a repository contracted through Beyond 20/20. SLED's South Carolina Incident-Based Reporting System (SCIBRS) unit frequently performs quality assurance reviews on all submitted reports to ensure the accuracy, consistency, and completeness of the data. If needed, these reports are then amended or corrected. It is important to note that the information contained in this report is only as complete and accurate as the information submitted to SLED. Accordingly, unreported crimes are not included.

Edits, updates, and corrections can be submitted to SLED at any time, providing agencies with the opportunity to report as thoroughly and accurately as possible. As a result, rates and totals from a specific year can vary from previously published totals for that same year. Any data published and represented here supersedes those published in previous reports. The data used for this report is current as of May 31, 2024.

Lastly, the definitions of specific crimes listed in this publication are derived from the FBI's UCR manual; they may or may not match those found in legal statutes or ordinances.

History, SRS, AND IBRS

As early as the 19th century, state and local municipalities have collected, analyzed, and used crime data to inform decisions; however, a lack of standardized crime definitions and collection methods, combined with minimal participation among agencies, resulted in an incomplete picture of crime and did not allow for reliable comparisons between jurisdictions. Attempting to resolve these issues, the United States Congress created the Department of Justice (DOJ) in 1870 and mandated the reporting of annual crime statistics[2]. Unfortunately, it would still be many more decades before uniform crime reporting (UCR) would be implemented meaningfully.

"The lack of a rational, comprehensive system of criminal statistics in the United States is one of the worst evidences to condemn us in the eyes of the scientific world…it is at the same time probably the most pervading fault in our public organization to combat crime."

-William T. Cross, *Statistics of Crime*, Journal of Criminal Law and Criminology, 1917[7]

Concentration on UCR intensified in the 20th century when the International Association of Chiefs of Police (IACP) established the Committee on Uniform Crime Records in 1927. The goal of this committee was to create a system responsible for providing unified, reliable, and systemic data for crime in the United States. The committee's idea was to use standardized definitions for the seven most common serious offenses (murder, rape, robbery, aggravated assault, burglary/breaking or entering, larceny, and motor vehicle theft)[1,3,4].

On June 11, 1930, at the recommendation of the IACP, Congress mandated that the Federal Bureau of Investigations (FBI) collect, compile, and distribute crime records[2]. The primary purpose of the FBI UCR Program was to provide a common language for the different criminal statutes among states and provide a nationwide view of crime based on the cooperative statistical effort of law enforcement agencies at all levels. The initial data collection method adopted from the IACP was known as the Summary Reporting System (SRS). SRS collected information on eight index offenses, adding arson to the list created by the Committee on Uniform Crime Records, as well as arrest data for an additional twenty-eight offenses[3].

Support and participation in the FBI UCR Program increased over the next several decades, with South Carolina initiating their reporting program in July 1973. As more agencies joined, many began recognizing a need for an enhanced reporting system. After a 3-year study sponsored by the Bureau of Justice Statistics (BJS) and the FBI that analyzed the effectiveness of crime statistics, the "Blueprint for the Future of the Uniform Crime Reporting Program" (1985) defined guidelines

[2] http://criminal-justice.iresearchnet.com/criminology/research-methods/crime-reports-crime-statistics/3/
[3] https://ucr.fbi.gov/additional-ucr-publications/ucr_handbook.pdf

[7] Available at https://scholarlycommons.law.northwestern.edu/cgi/viewcontent.cgi?article=1511&context=jclc

for the development of a new reporting system that would allow for more efficient reporting with greater detail[5]. In 1986, the FBI used those guidelines to create the National Incident-Based Reporting System (NIBRS)[1,3].

NIBRS expanded on the previous SRS by requiring a higher degree of detail in reporting and transitioned from an offense to an incident-focused method of data collection. Whereas SRS collected only eight Part I crimes, NIBRS currently collects detailed data on 59 Group A offenses[1]. Additionally, the older Summary system allowed only the single most serious offense in an incident to be reported; any other offenses and the information associated with them were not collected. NIBRS allowed up to five separate Group A offenses to be reported in each incident, collecting data on the offense characteristics, property, victims, offenders, and arrestees associated with each crime. As of January 2017, NIBRS now allows the reporting of up to ten separate Group A offenses in each incident[1,6].

A NIBRS pilot program was conducted in South Carolina in 1987 to finetune the new incident-based records management system, and at the 1988 National UCR Conference, the FBI was urged to adopt the program nationally[3]. In 1991, South Carolina became one of the first states to implement the incident-based reporting (IBR) system. The state's program was thereafter known as the South Carolina Incident-Based Reporting System (SCIBRS).

While enough data was being collected through the new system to allow for historical trend reporting, NIBRS data continued to be converted back to Summary for publication in *Crime in South Carolina*. The conversion of NIBRS data helped facilitate the comparison with the FBI's statistical crime publications—such as *Crime in the United States*—which converted all IBR data to Summary data. While the FBI UCR Program continued to operate the two reporting systems in tandem for years, in 2015, the FBI gave a deadline of January 1st, 2021, for all agencies to complete their transition to NIBRS to satisfy the need for more reliable national statistics[5].

Crime in South Carolina 2023 will be the eleventh edition to feature incident-based data exclusively. Because of the significant differences between Summary data and NIBRS data, any comparisons between the figures published here to those released in Summary publications, such as *Crime in the United States* or editions of *Crime in South Carolina* published prior to 2013, are strongly discouraged.

This publication is also the fourth edition of *Crime in South Carolina* in which the number of Breaking & Entering (B&E) crimes is calculated differently. Before the 2020 edition, this report used a counting methodology similar to the FBI's *Crime in the United States* publication, where one B&E was counted per incident, except where a hotel/motel or rental self-storage facility was broken into. In those incidents, the number of rooms/units was counted instead. *Crime in South Carolina 2020* to *2023* follows the methodology used by the FBI's NIBRS publication, where only one B&E is counted per incident, regardless of location type. While all figures in this edition were calculated by applying the updated methodology, only the number of incidents is affected, not the number of arrests. Therefore, any comparison between the number of crimes for the B&E offense

[5] Available at https://www.ojp.gov/pdffiles1/bjs/98348.pdf
[6] https://www.theiacp.org/sites/default/files/all/n-o/NIBRSTheFutureofUSCrimeDataOct2017.pdf

and the Property Crimes category published in this report to editions published prior to *Crime in South Carolina 2020* is strongly discouraged. With the sunsetting of SRS at the end of 2020, this updated method for calculating B&E will help facilitate comparisons to future FBI NIBRS publications.

Lastly, *Crime in South Carolina* has remained virtually unchanged since it was first printed in 1973. From 1973 to 2012, several factors dictated the format and presentation of those early publications, factors which are no longer relevant. The previous 2020 edition represents the first significant revision of this publication since its inception, focusing mainly on stylistic modifications and textual revisions. The 2021 edition of *Crime in South Carolina* aimed to anticipate the needs and interests of agencies, policymakers, and the public by expanding the number of offenses included and providing a more detailed layout and consistent analysis. The 2022 edition expanded the report even further with the incorporation of a spatial analysis component via maps and the addition of full-time law enforcement (FTLE) counts. This 2023 edition continues that pattern of expansion and transparency in crime trends with the addition of a Use of Force Participation section appended in the LEOKA chapter.

To better meet growing analytical needs and support more intelligence-led policing, SCIBRS encourages all stakeholders to complete the survey at the end of this report to provide our department with any feedback or recommendations they may have for consideration in future publications.

Theme Oriented Public Site (TOPS)

Criminologists, sociologists, legislators, municipal planners, the media, and students of criminal justice use the data collected by SLED's UCR program for varied research and planning purposes. In addition to accuracy, consistency, and completeness, timeliness and accessibility are dimensions of high-quality data and information. SLED has collaborated with Beyond 20/20 to augment *Crime in South Carolina* with a publicly available web-based extension to the SCIBRS repository, providing stakeholders with the most up-to-date and easily retrievable information. This extension, known as the "Theme Oriented Public Site," or TOPS, provides a visualization layer integrated directly with the SCIBRS repository. Users can search for dynamic crime information by jurisdiction, year, and category. Additionally, after passing quality assurance reviews, the information contained within TOPS is updated and made available throughout the year. TOPS is accessible at https://beyond2020.sled.sc.gov/tops/.

Crime Rates

Throughout this report, crimes are presented as either the total number of reported offenses or the rate of offenses per 10,000 units of the population. In this publication, the rate, or frequency, of an offense is calculated as the ratio of offense incident counts to the population multiplied by 10,000. Thus, the formula used to calculate the crime rate is:

$$Crime\ Rate = \frac{Number\ of\ Crimes}{Population} \times 10{,}000$$

Because it considers population size, the crime rate provides the most useful basis for comparing jurisdictions or other geographical groups over time. To better explain, if County X and County Y both experience thirty homicides in 2020, each county seems to have an equal prevalence of murders. This would be accurate if both areas had an equal population; however, population counts are not identical among the two jurisdictions. Suppose County X has 200,000 persons and County Y has 20,000; the mere count of murders in each area thus affords no context for evaluation or comparison between the two counties.

Conversely, by assessing the murder count against each county's population, the resulting rates reveal that County X has a murder rate of 1.5 murders per 10,000 units of population, and County Y has 15 murders per 10,000 units. Looking at murder in the context of each county's population allows us to draw conclusions about the comparative frequency of murder between the two jurisdictions. Despite both having thirty homicides in 2020, murder was ten times more prevalent in County Y.

Rates normalize vastly different population densities between areas, which, in turn, provides for fair comparisons. Likewise, normalization allows consistent trend analysis for specific jurisdictions or areas over different times and population densities. For example, if in 2020, the population of County X is 200,000 and there are 30 murders, but in 2021, the population increases to 320,000 and murders increase to 48, the murder rate is still 1.5 murders per 10,000 persons for both years. So, while the number of murders may have increased in County X, the overall prevalence of murders remained the same.

Clearance

Clearance rates provide a measure of the degree to which crimes are resolved. For UCR purposes, clearance indicates an arrest has been made, and the offender has been charged and turned over to the court for further prosecution. However, a crime may also be cleared by exceptional means preventing an arrest. The four elements that must exist for a crime to be exceptionally cleared include 1) the identity of at least one offender must be known, 2) sufficient probable cause has been developed to support the offender's arrest and prosecution, 3) the offender's exact location must be known, and 4) there is a reason outside of law enforcement's control which prevents the arrest (e.g., death of the offender). Clearance rates are calculated using the following formula:

$$Clearance\ Rate = \frac{Number\ of\ Crimes\ Cleared\ by\ Arrest\ or\ Exceptional\ Means}{Count\ of\ Crimes\ Reported}$$

Many variables – education, poverty, employment opportunities, history, culture, age distribution, and other characteristics – influence crime in an area. This publication provides rates based on county population for individual county rates and state population for statewide rates. These rates do not account for the additional variables previously mentioned. It is not the intention of the authors, nor should anything be construed as intending to rank cities, towns, counties, or regions based on crime rates, the effectiveness of law enforcement agencies to deter or solve crime, or the propensity for crime within any age, sex, racial, or ethnic group. Any use of the data within this publication without factoring in other variables would provide an incomplete, simplistic analysis and false or misleading perceptions of the true nature of crime in South Carolina.

Additionally, demographic data (age, sex, race, and ethnicity) is shown for arrestees/offenders and victims to provide a more detailed analysis of each offense included in this report. Please note that the total for some categories of certain tables, charts, or graphs in this report may not total 100% due to rounding or the ability to submit multiple values for certain fields. The percent change in the rate per 10,000 inhabitants is calculated from unrounded rates not displayed in the tables.

Population Data

Crime in South Carolina obtains population data from the United States Census Bureau to calculate crime and clearance rates displayed throughout this publication. The Census Bureau's data is also seen in figures pertaining to state, county, race, sex, age, and Hispanic origin groups. Traditionally, it is the practice of the SLED SCIBRS unit to obtain the Census Population figures from the American Community Survey (ACS) or the Decennial Census corresponding to the year of the *Crime in South Carolina* publication. However, in an effort to publish earlier than previous years, the county populations for this edition were derived from data released by the Population Division of the U.S. Census Bureau in March 2024 in their 'Annual Estimates of the Resident Population for Counties in South Carolina.'

For sections displaying Census Race figures, the Census Bureau tallies responses based on the five categories defined in 1997 by the U.S. Office of Management and Budget (OMB),

- **White** - A person having origins in any of the original peoples of Europe, the Middle East, or North Africa. It includes people who indicate their race as "White" or report responses such as German, Irish, English, Italian, Lebanese, and Egyptian. The category also includes groups such as Polish, French, Iranian, Slavic, Cajun, Chaldean, etc.
- **Black or African American (Black/AA)** - A person having origins in any of the Black racial groups of Africa. It includes people who indicate their race as "Black or African American" or report responses such as African American, Jamaican, Haitian, Nigerian, Ethiopian, or Somali. The category also includes groups such as Ghanaian, South African, Barbadian, Kenyan, Liberian, Bahamian, etc.

- **American Indian or Alaska Native (AIAN)** - A person having origins in any of the original peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment. This category includes people who indicate their race as "American Indian or Alaska Native" or report responses such as Navajo Nation, Blackfeet Tribe, Mayan, Aztec, Native Village of Barrow Inupiat Traditional Government, or Nome Eskimo Community.
- **Asian** - A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent, including, for example, India, China, the Philippine Islands, Japan, Korea, or Vietnam.
- **Native Hawaiian or Other Pacific Islander (NHOPI)** - A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands. It includes people who indicate their race as Native Hawaiian, Chamorro, Samoan, and Other Pacific Islander or provide other detailed Other Pacific Islander responses such as Palauan, Tahitian, Chuukese, Pohnpeian, Saipanese, Yapese, etc.

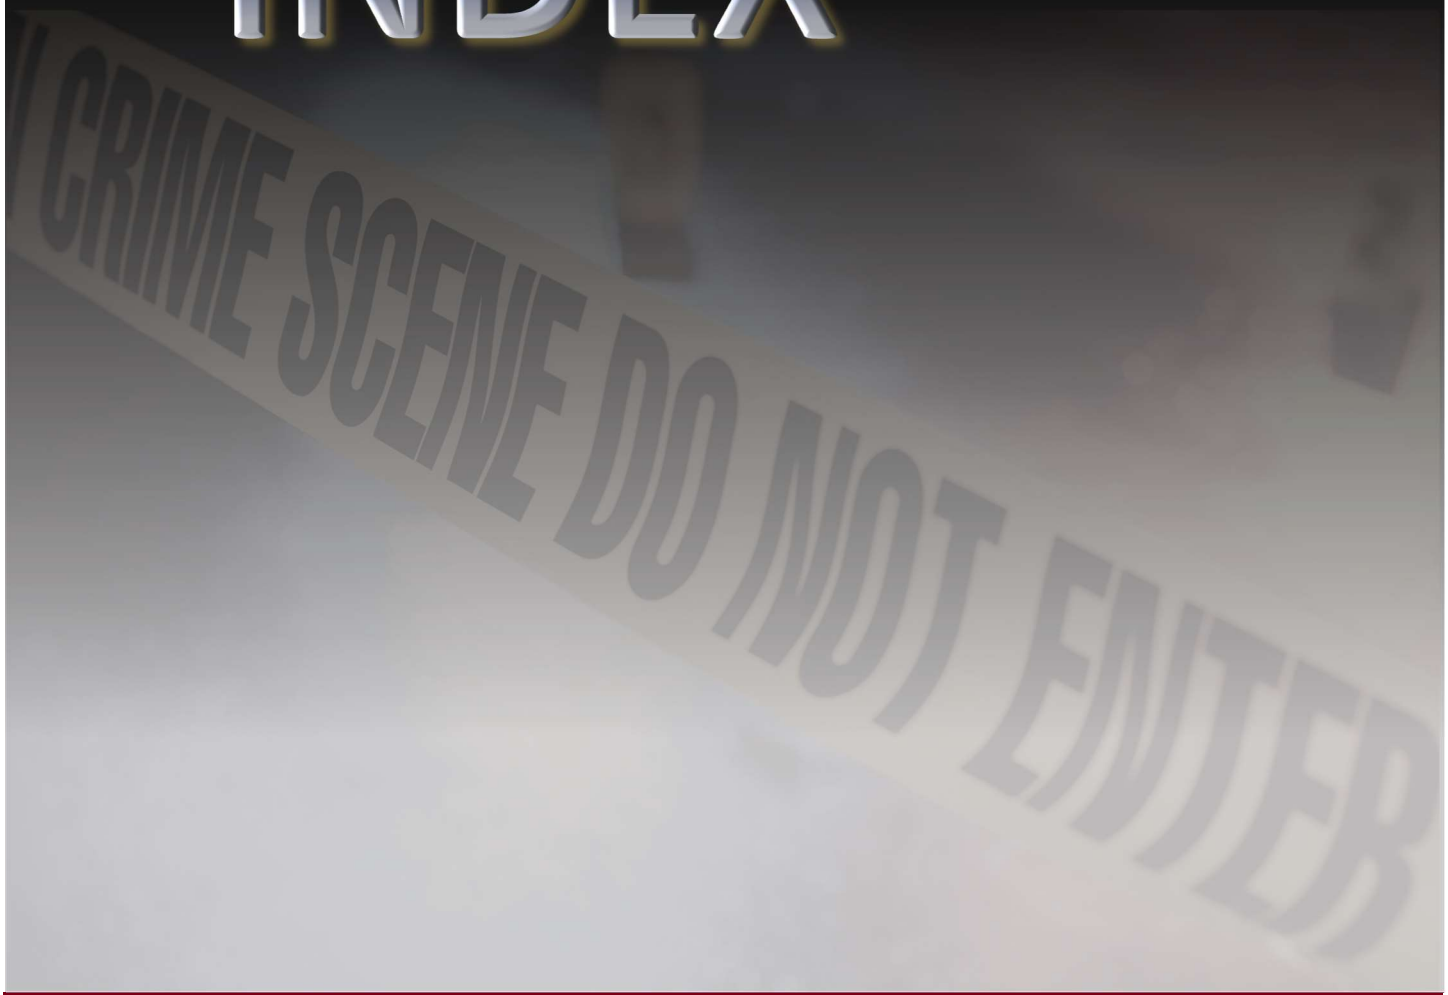
In addition to Race, participants can select from one of two categories of ethnic origin,

- Hispanic or Latino
- Not Hispanic or Latino.

The Census Bureau reports that respondents indicating a Hispanic or Latino origin are usually born or have ancestors from Spain, the Spanish-speaking countries of Central or South America, or another Spanish culture or origin. It is important to recognize that persons identifying as Hispanic or Latino can be of any race.

Lastly, ACS and Decennial survey results are based on self-reported data. Respondents can select from one of the five race categories or from a combination of those categories; there are 57 possible combinations; however, the information contained within the S.C. Repository is derived from reports submitted by Law Enforcement agencies throughout the state. The victim's and suspect's race may be identified by the victim or suspect or indicated through observations of the reporting officer.

CRIME INDEX



2023 Facts at a Glance

Violent Crime in South Carolina

- The violent crime rate decreased by 5.8% from 2022 to 2023, the 3rd consecutive yearly decrease.
- The murder rate decreased by 5.9%; the overall number of murders also decreased by 4.3% from 2022 to 2023.
  - 64.4% of offenders are Black/AA males.
  - 57.7% of victims were Black/AA males.
  - 77.7% of murders involved a firearm.
  - 47.6% occurred in a residence/home.
- The sexual battery rate decreased from 2022 by 8.8%.
  - 95.2% of offenders were male (44.4% White males; 42.2% Black/AA males). Offender age peaks at 25-34 (19.7%), 17.2% of offenders were under 18.
  - 89.6% of sexual battery victims were female, with 55.8% being White females.
  - 45.4% of victims were under 18.
  - 45.5% of victim-to-offender relationships were acquaintances and 21.9% family.
  - 62.0% occurred at a residence/home.
- The robbery rate decreased by 3.3% from 2022 to 2023, the 7th consecutive decrease.
  - 69.6% of offenders were Black/AA males.
  - 68.4% of victims were male. 34.4% were White males, and 29.89% were Black/AA males.
  - 34.3% were motivated by financial gains.
  - 20.4% occurred at a residence/home.
  - 52.1% committed using a firearm.
- The aggravated assault rate decreased by 5.7% from 2022 to 2023.
  - 75.2% of offenders were male, the majority being Black/AA males (45.4%).
  - 51.0% of victims were male and 49.0% female (38.9% White, 59.2% Black/AA).
  - 22.9% were committed by an intimate partner, and 26.7% by an acquaintance.
  - 52.1% occurred at a residence/home.
  - 42.9% used a firearm.

Property Crime in South Carolina

- The property crime rate decreased by 6.1% from 2022 to 2023. This is the twelfth consecutive yearly decrease.
- The burglary rate decreased by 9.6% from 2022 to 2023. This is the twelfth consecutive yearly decrease.
  - 80.8% of offenders were male (37.2% White males, 40.5% Black/AA males).
  - 50.8% of victims were male and 49.2% female (60.8% White, 35.6% Black/AA).
  - 59.3% occurred at a residence/home.
- The motor vehicle theft rate increased slightly by 0.3% from 2022 to 2023.
  - 79.4% of offenders were male, with 35.3% White males and 41.3% Black/AA males.
  - 57.3% of victims were male, with majority being White males (35.1%).
  - 40.5% of motor vehicle thefts occurred at a residence/home, followed by 17.8% in a parking lot or garage.
  - 50.1% of motor vehicle thefts were either recovered or seized.
- The larceny rate decreased by 6.5% from 2022 to 2023. This continues the consistent downward trend over the last twelve years.
  - 66.2% of offenders were male (29.6% White males, 33.9% Black/AA males.)
  - 52.8% of victims were male. 63.0% were White, and 33.7% Black/AA.
  - 31.7% took place at a residence/home, 12.5% at a department/discount store, and 11.1% in a parking lot/garage.
- The arson rate increased by 1.9% from 2022 to 2023.
  - 74.6% of offenders were male (40.6% White males, 32.8% Black/AA males).
  - 51.2% of victims were male. 46.6% were White, and 47.6% were Black/AA.
  - 50.5% occurred at a residence/home.

Index Offenses

The following Part I offenses – murder, sexual battery, robbery, aggravated assault, breaking and entering, motor vehicle theft, larceny, and arson – make up South Carolina's crime index. These represent the eight major crimes most likely to be reported to law enforcement, and that occur with regularity, thus giving a general overview of what crime looks like in South Carolina. These offenses are typically categorized as either violent crimes or property crimes.

Murder and Nonnegligent Manslaughter

South Carolina defines murder as the willful (nonnegligent) or intentional killing of one person by another. It includes deaths due to injuries received in a fight, argument, quarrel, assault, or during the commission of another crime. Suicides, traffic fatalities (including those involving DUI and Reckless Driving), fetal deaths, attempted murders, and accidental deaths are not classified as murder in terms of uniform crime reporting; therefore, they are not reflected in the data presented under this section. The classification of murder is based on the initial police investigation, not on the determination of a court, medical examiner, coroner, jury, or other judicial body. This offense is reported below based on the number of victims.

Murder Numbers and Rates by Period

Sexual Battery

Sexual battery is the penetration—no matter how slight—of the vagina or anus with any body part or object, including oral penetration by the sex organ of another person, without the consent of the victim. Based on this definition, sexual battery encompasses the crimes of rape, sodomy, and sexual assault with an object. The key element for all three of these sex offenses is the absence of consent. This includes situations where the victim cannot legally consent due to their age or mental/physical incapacity, whether temporary or permanent. The individual definitions for those crimes can be found in the Glossary. This offense is reported below based on the number of victims.

Sexual Battery Numbers and Rates by Period

Trend	Number of Crimes	Rate per 10,000 Inhabitants
1 Year		
2022	2,414	4.57
2023	2,240	4.17
Change	-7.2%	-8.8%
10 Year		
2014	2,287	4.74
2023	2,240	4.17
Change	-2.1%	-12.1%

Robbery

Robbery is the taking or attempted taking of anything of value from the care, custody, or control of another person by force or threat of force, by violence, or by putting the victim in fear of immediate harm. A key element of robbery that sets it apart from lesser offenses such as purse-snatching, pocket-picking, or burglary is the presence of a direct confrontation between the offender(s) and victim(s). For example, if during a purse-snatch, the offender uses force to overcome the active resistance of the victim, that offense is now classified as robbery. This offense is reported below based on the number of incidents or distinct operations of Robbery.

Robbery Numbers and Rates by Period

Trend	Number of Crimes	Rate per 10,000 Inhabitants
1 Year		
2022	2,222	4.21
2023	2,185	4.07
Change	-1.7%	-3.3%

Aggravated Assault

Aggravated assault is an unlawful attack by one person upon another where the offender uses a serious weapon, displays that weapon in a threatening manner, and/or the victim suffers apparent severe or aggravated bodily injury. A serious bodily injury may include broken bones, loss of teeth, possible internal injury, severe laceration, loss of consciousness, etc. A 'serious weapon' is defined as anything that could cause an injury that would typically require some form of medical attention. An injury does not need to result from an aggravated assault if a weapon is being used with the potential to cause a serious personal injury. This offense is reported below based on the number of victims.

Agg Assault Numbers and Rates by Period

Trend	Number of Crimes	Rate per 10,000 Inhabitants
1 Year		
2022	22,381	42.37
2023	21,462	39.94

Breaking and Entering

Breaking and entering (B & E), also known as burglary, is the unlawful entry into a building or other structure with the intent to commit a felony or theft. Trespassing is an essential element of burglary and implies that the offender had no legal right to enter the property, building, or structure in question. A structure is defined as anything with four walls, a roof, and a door, including any mobile home or other mobile unit permanently fixed as an office, residence, or storehouse. Mobile units used for recreational purposes are excluded. This offense is reported below based on the number of incidents or distinct operations of Burglary.

B & E Numbers and Rates by Period

Trend	Number of Crimes	Rate per 10,000 Inhabitants
1 Year		
2022	18,722	35.44

Motor Vehicle Theft

Motor vehicle theft is simply the stealing of a motor vehicle. A motor vehicle is defined as a self-propelled vehicle that runs on the surface of land that is not considered the proceeds of another crime. SLED's UCR Program classifies motor vehicles into the following categories: automobiles, buses, recreational vehicles, trucks, and other motor vehicles (motorcycles, snowmobiles, golf carts, etc.). Trains, boats, and farm equipment are not included in these property descriptions. Motor vehicle theft excludes the unauthorized temporary taking of motor vehicles by those having lawful access, such as in family situations or with chauffeurs. It also excludes carjackings, which are included under robbery since it involves a direct confrontation with the victim. One offense is counted for each stolen vehicle.

Arson

Arson is the unlawful and intentional damage of or the attempt to damage any real or personal property by fire or incendiary device. This offense does not include suspicious fires or those of unknown origin, only ones determined through investigation to have been illegally and intentionally set. This offense is reported below based on the number of incidents or distinct operations of Arson.

Arson Numbers and Rates by Period

Trend	Number of Crimes	Rate per 10,000 Inhabitants

GROUP A OFFENSES

Group A Offenses

When reporting data to the SLED UCR Program via SCIBRS, law enforcement must classify the offenses within an incident as Group A or Group B offenses. SCIBRS requires differing levels of detail in reporting each offense type. For example, law enforcement must report both incident and arrest details for Group A, but only arrest data for Group B. Group A are considered the more severe crimes, such as the index offenses discussed in the previous chapter. When deciding whether a crime should be designated under Group A, SCIBRS developers looked at specific characteristics of the offense, such as its seriousness, frequency, nationwide prevalence, probability of law enforcement becoming aware of the crime, whether law enforcement would be the best channel to collect data on it, the statistical validity and usefulness of collecting data for that offense, and the SLED UCR Program's responsibility in making that crime data available to those with a legitimate interest in it. Because of the differing levels of detail required when reporting Group A versus Group B offenses, the remaining crimes presented and analyzed in this publication are divided into those two categories.

This chapter presents the incident-level details for eleven Group A offense categories, covering twenty-two of the fifty-nine Group A offenses. These offenses were chosen for inclusion in this report based on stakeholder interests and their prevalence in South Carolina.

Crimes Against Persons

Group A offenses can be organized into three categories: Crimes Against Persons, Crimes Against Property, and Crimes Against Society. Crimes Against Persons are offenses whose victims are always individuals. These include all assault, homicide, human trafficking, and sex offenses. For counting purposes, one offense is counted for each victim. Out of the eight index offenses already discussed, aggravated assault, murder, and sexual battery are classified as Crimes Against Persons. This section explores three other offenses that fall into this category: simple assault, intimidation, and fondling.

2023 Facts at a Glance

- The simple assault rate increased slightly by 0.7% from 2022 to 2023, its third yearly increase.
  - 64.3% of offenders were male (29.5% White males, 33.4% Black/AA males).
  - 60.0% of victims were female (30.7% White females, 28.2% Black/AA females).
  - 35.7% occurred between intimate partners.
  - 51.0% occurred at a residence/home.
- The intimidation rate decreased by 1.4% from 2022 to 2023. The 2023 intimidation rate was the lowest recorded rate in the last 30 years.
  - 69.6% of offenders were male (30.4% White males, 37.4% Black/AA males).
  - 62.3% of victims were female (29.7% White females, 31.3% Black/AA females).
  - 42.8% of victim-to-offender relationships were acquaintances. 19.2% were intimate relationships.
  - 49.4% occurred at a residence/home.
- The fondling rate decreased by 13.3% from 2022 to 2023.
  - 89.6% of offenders were male, majority being White males (48.8%). 26.1% of offenders were under 18.
  - 82.2% of victims were female, majority being White females (51.9%). 74.0% of victims were under 18.
  - 37.3% of victim-to-offender relationships were acquaintances. 33.5% were family.
  - 61.4% occurred at a residence/home.

Simple Assault

Simple assault is an unlawful physical attack by one person upon another in which no serious weapon was used or displayed, and the victim did not sustain any serious bodily injury. If either of those elements does exist, the assault is considered an aggravated assault, not simple. Simple assault can include offenses such as minor assault, hazing, assault and battery, and any injury caused by culpable negligence.

Simple Assault Numbers and Rates by Period

Trend	Number of Crimes	Rate per 10,000 Inhabitants

Intimidation

Intimidation is to unlawfully place another person in reasonable fear of harm through threatening words or other conduct without displaying a dangerous weapon or subjecting the victim to an actual physical attack. If a weapon is present or the offender does attack the victim, it becomes an assault, not intimidation. This offense includes stalking and any threats made in person, via phone, or in writing.

Intimidation Numbers and Rates by Period

Trend	Number of Crimes	Rate per 10,000 Inhabitants
1 Year		
2022	12,773	24.18

Fondling

Fondling is the touching of the private body parts of another for the purpose of sexual gratification without the consent of the victim. As with sexual battery, the absence of consent includes instances where the victim cannot give consent because of their age or mental/physical incapacity. Fondling is a necessary element of rape, sodomy, and sexual assault with an object, so it cannot be reported as a separate offense for the same victim; however, in the absence of sexual penetration, a crime may fall under the category of fondling.

Fondling Numbers and Rates by Period

Trend	Number of Crimes	Rate per 10,000 Inhabitants

Crimes Against Property

The object of Crimes Against Property is to obtain money, property, or some other benefit. This category encompasses the remaining five index offenses not already classified as Crimes Against Persons: robbery, arson, burglary/breaking and entering, larceny, and motor vehicle theft. One offense is counted for each distinct operation of a Crime Against Property, except in the instance of motor vehicle theft, where one offense is counted per stolen vehicle. This section discusses the following Crimes Against Property: destruction/damage/vandalism of property, counterfeiting/ forgery, embezzlement, and all fraud offenses. Since victim(s) of these crimes do not have to be an individual but could be a business or organization, note that the victim demographics presented in this section only apply to the portion of offenses whose victim type was an individual.

2023 Facts at a Glance

- The Destruction/Damage/Vandalism of Property rate decreased by 4.7% from 2022 to 2023. The 2023 DDV rate was the lowest recorded rate since 1997.
  - 71.8% of offenders were male (32.1% White males, 37.0% Black/AA males).
  - 54.5% of victims were female and 45.5% male (50.4% White, 46.9% Black/AA).
  - 77.6% of victims were individuals, and 18.0% were businesses.
  - 42.7% occurred at a residence/home.
  - 37.0% had the property description of automotive, and 19.5% of structures.
- The counterfeiting/forgery rate decreased by 5.4% from 2022 to 2023.
  - 65.5% of offenders were male (29.9% White males, 30.9% Black/AA males).
  - 41.4% of victims were individuals, and 47.8% were businesses. Of those individuals, 50.2% were male and 49.8% female (75.9% White).
  - 37.1% of victims were 65 and over. Victimization increased with age.
  - 22.2% of incidents occurred at a bank.
  - 72.1% of counterfeit or forged property was financial.
- The embezzlement rate decreased by 6.9% from 2022 to 2023.
  - 41.0% of offenders were male and 59.0% female (43.0% White, 54.2% Black/AA).
  - 90.3% of victims were classified as businesses, and only 8.0% were individuals. Of those individual victims, 58.1% were male and 41.9% were female (64.9% White; 16.2% Black/AA).
  - 22.2% occurred at a convenience/grocery store; 21.9% at a department/discount store.
  - 61.4% of the property description for embezzled goods was financial.
- The fraud rate decreased slightly by 0.1% from 2022 to 2023.
  - 59.1% of offenders were male. 46.9% of offenders were White and 43.2% were Black/AA.
  - 78.5% of victims were individuals, with 55.7% being female. 68.6% of victims were White and 27.2% were Black/AA.
  - 24.9% of victims were 65 years of age or older.
  - 37.2% occurred at a residence/home.
  - 55.9% of property involved in fraud are described as financial.

Destruction/Damage/Vandalism of Property

Destruction/Damage/Vandalism (DDV) of Property is considered the act of willfully or maliciously destroying, damaging, defacing, or injuring any public or private property without the consent of the owner or the person having custody or control of that property. This offense does not include any damage resulting from arson. Agencies are required to report a DDV offense regardless of the amount of damage but should not report insubstantial or minor damage, such as a broken window. What is considered minor damage is left up to the discretion of the law enforcement agency.

DDV Numbers and Rates by Period

Trend	Number of Crimes	Rate per 10,000 Inhabitants

Counterfeiting/Forgery

Counterfeiting/Forgery includes the altering, copying, or imitating of something, without authority or right, with the intent to use what has been copied, altered, or imitated to deceive or defraud by passing it off as original or genuine. It also includes the selling, buying, or mere possession of an altered, copied, or imitated thing with the intent to deceive or defraud. A key element of this offense is the intent to deceive, so someone possessing counterfeit bills must know they are in possession of them and intend to use them for the crime to be coded as counterfeiting. Other examples of this offense include signing someone else's name on a document with the intent to defraud, possessing or manufacturing a counterfeiting apparatus, selling goods with altered trademarks, forged checks, etc.

Counterfeiting Numbers and Rates by Period

Embezzlement

Embezzlement is defined as the unauthorized or unlawful use of funds, property, or something of value entrusted to the offender's care, custody, or control for their own use or purpose. An essential element of this offense is the presence of an employer/employee or legal agent relationship, so typically the victims of embezzlement are businesses. The South Carolina state statute regarding this offense only considers embezzlement to be the misappropriation of public funds, but the SCIBRS definition of embezzlement, derived from the FBI's UCR definitions, encompasses anything of value.

Embezzlement Numbers and Rates by Period

Fraud Offenses

SCIBRS defines fraud as the intentional misrepresentation of the truth to deceive another person or entity reliant on that information to part with something of value or surrender a legal right. A critical element that separates fraud from larceny is deceit. So, if theft is accomplished via deceit or lying, it is considered fraud. Fraud involves the offender receiving a benefit or the victim incurring a detriment. This benefit or detriment can be tangible or intangible, such as someone impersonating another to obtain money (tangible) versus gaining access to a restricted area (intangible). In this publication, fraud offenses include the crimes of false pretenses/swindling/confidence games, credit card/ATM fraud, impersonation, welfare fraud, wire fraud, and identity theft (See Glossary).

Fraud Numbers and Rates by Period

Trend	Number of Crimes	Rate per 10,000 Inhabitants
1 Year		
2022	25,095	47.50
2023	25,498	47.45

Crimes Against Society

In addition to Crimes Against Persons and Crimes Against Property, Group A offenses can also be categorized as Crimes Against Society. Crimes Against Society represent society's prohibition against engaging in certain activities, such as prostitution, gambling, drugs, and weapon law violations. These crimes are usually victimless crimes in which property is not the object and the victim is the public or society. For counting purposes, one offense is counted for each Crime Against Society.

2023 Facts at a Glance

- The drug offense rate decreased by 3.2% from 2022 to 2023.
  - 74.2% of offenders were male (31.1% White males, 42.1% Black/AA males).
  - 50.9% of drugs involved were categorized as marijuana/hashish and 19.0% as stimulants.
  - 55.9% occurred on a highway/alley/road/street, followed by 10.3% at a residence/home.
- The prostitution offenses rate increased by 8.0% from 2022 to 2023.
  - 56.4% of offenders of prostitution offenses were male, with 33.8% being White males and 19.5% being Black/AA males. 43.6% of offenders were female, with 21.8% being White females and 15.0% being Black/AA females.
  - 24.1% occurred in a residence/home, 21.9% in a hotel/motel, and 9.5% on a highway/alley/road/street.
- The rate of weapon law violations increased by 1.8% from 2022 to 2023. 2023 experienced the tenth consecutive yearly increase in the weapon law violations rate. A ten-year trend analysis shows a 106.2% increase in the weapon violations rate from 2014 to 2023.
  - 86.4% of offenders were male, majority being Black/AA males (63.2%).
  - 48.4% occurred on a highway/road/alley/street.
  - 90.8% of weapon law violations involved a firearm; 75.1% of which were categorized as handguns.
- The gambling offense rate decreased by 43.6% from 2022 to 2023.
  - 68.8% of offenders were male, the majority being Black/AA males (49.4%).
  - 47.2% occurred at a residence/home, followed by 13.9% on a highway/road/alley/street and 13.9% in a commercial/office building.

Drug/Narcotic Offenses

Drug offenses are the violation of laws prohibiting the production, distribution, purchase, possession, transportation, importation, or use of any controlled drug or narcotic substance and the equipment or devices utilized in their preparation or use. Drug/Narcotic violations and drug equipment violations both fall under this category. The latter includes drug paraphernalia, equipment, chemicals, illegal labs, etc.

Drug Offense Numbers and Rates by Period

Prostitution Offenses

SCIBRS prostitution offenses are divided into three categories: Prostitution, assisting or promoting prostitution, and purchasing prostitution. Prostitution is defined as engaging in commercial sex acts for anything of value, while purchasing prostitution is the purchase or trade of anything valuable in return for sex acts. Assisting/promoting prostitution is to solicit customers or transport people for prostitution purposes or any activity that could be considered the assisting or promoting of prostitution. This includes the owning, operating, or managing of an establishment for the purpose of providing a place where prostitution is performed. These crimes are not sex-specific, so offenders can be male or female.

Weapon Law Violations

Weapon law violations are defined as the violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, concealment, or use of firearms, cutting instruments, explosives, incendiary devices, or other deadly weapons. This offense includes the use or manufacture of silencers and the furnishing of deadly weapons to minors. It also consists of illegally carrying a deadly weapon, whether concealed or openly carried.

Gambling Offenses

Gambling is to unlawfully bet or wager money or something else of value; assist, promote, or operate a game of chance for money or some other stake; possess or transmit wagering information; manufacture, sell, purchase, possess, or transport gambling equipment, devices, or goods; or tamper with the outcome of a sporting event or contest to gain a gambling advantage. Gambling is a unique category of offenses in that it depends on the violation of locally established statutes. So, in places where gambling is legal, it is only reported if something violates the statutes of the jurisdiction in question. In this report, the gambling category encompasses the four offenses of betting/wagering, operating/promoting/assisting gambling, gambling equipment violations, and sports tampering (See Glossary for individual offense definitions).

GROUP A ARRESTS

Group A Arrests

The previous sections analyzed the incident-level details for South Carolina's eight index offenses and eleven Group A offense categories. This chapter focuses on arrest details for all Group A offense categories for which SCIBRS has quantitatively reliable data, representing fifty-one of the fifty-nine Group A offenses. Arrest counts provide a measure of law enforcement's response to crime, while arrest rates estimate crime prevalence. The arrest counts are displayed in the following tables and charts, and arrest rates can be found in the 'Arrests by County' tables that follow the Group B Arrests chapter. It is important to note that arrest policies and procedures can vary between agencies and communities. However, the policies for crimes such as robbery, burglary, and other severe Group A arrests are more likely to remain uniform and consistent throughout all jurisdictions. In addition, UCR procedures require that an arrest be counted on each separate occasion a person is taken into custody, notified, or cited; thus, annual arrest figures do not measure the number of individuals arrested, but the total number of arrests made, since one person may be apprehended, notified, or cited several times over the course of a given year for the same or different offense(s).

Until July 1, 2019, state law set the age of adult responsibility at seventeen years of age in most criminal matters. Therefore, the adult arrest totals in previous editions were calculated based on the adult age (17 and older) at that time. For subsequent editions of *Crime in South Carolina*, the current definition of an adult (18 and older) is used. Due to this change, comparisons of juvenile arrest data to those published in editions before 2019 are discouraged.

2023 Facts at a Glance

Crimes Against Persons

- Most murder arrestees were Black/AA males (67.2%), peaking in the 18-24 age range.
- Most negligent manslaughter arrestees were male (57.1%). Male and female offenders peaked in the 25-34 age range.
- Most aggravated assault arrestees were male (79%; 46.3% Black/AA males and 31.3% White males), peaking in the 25-34 age range.
- Most simple assault arrestees were males (67.3%), with 34.5% being Black/AA males and 31.7% White males, peaking in the 25-34 age range.
- Most intimidation arrestees were male (82.5%), with 39.0% being White males and 42.7% being Black/AA males, peaking in the 25-34 and 35-44 age ranges.
- Most kidnap arrestees were 53.0% Black/AA males, peaking in the 25-34 age range.
- Most sexual battery arrestees were White males (51.9%), peaking in the 25-34 age range.
- Most fondling arrestees were White males (57.6%), peaking in arrestees under 18.
- 100% of incest arrestees were male, 33.3% White and 66.7% Black/AA.
- Most statutory rape arrestees were male (98.5%), with 48.5% White males and 48.5% Black/AA males, peaking in the 18-24 age range.
- Most sexual exposure arrestees were Black/AA males (50.4%) followed by White males (38.7%), peaking in the 35-44 age range.
- Most arrestees for telephone calls, obscene, harassing were males (75.2%), 45.35% being White males, and 28.8% being Black/AA males, peaking in the 25-34 and 35-44 age ranges.

Crimes Against Property

- Most arson arrestees were male (72.7%) with 40.7% being White males and 32.1% being Black/AA males, peaking in the 35-44 age range.
- Most bribery arrestees were male (66.7%) with 50% being Black/AA males, peaking in juveniles under 18.
- Most robbery arrestees are Black/AA males (67.3%), peaking in the 18-24 age range.
- Most extortion arrestees were male (53.8%) and/or White (69.2%), peaking in juveniles under 18.
- Most burglary arrestees were males (83.4%) with 41.3% being White males and 41.3% being Black/AA males, peaking in the 25-34 age group.
- Most DDV arrestees were male (76.2%). 40.0% were White males and 34.9% were Black/AA males, peaking in the 25-34 age range.
- Most counterfeiting arrestees were 68.0% males (38.0% White males, 29.5% Black/AA males) peaking in the 18-24 age range.
- Most embezzlement arrestees were female (57.0%). Arrestees were 47.5% White and 47.1% Black/AA), peaking in the 25-34 age range.
- Most fraud arrestees were male (60.0%) with 30.9% being White males and 28.5% being Black/AA males, peaking in the 25-34 age range.
- All hacking/computer invasion arrestees (3) were white, 66.7% were White males in the 25-34 and 35-44 age ranges.
- Most larceny arrestees were male (63.7%), with 32.6% being White males and 30.4% Black/AA males, peaking in the 25-34 age range.
- Most motor vehicle theft arrestees were males (82.0%), peaking in the 25-34 age

range. 41.0% of arrestees were White males and 40.5% were Black/AA males.

GROUP B OFFENSES

Group B Offenses

When reporting data to the SLED UCR Program via SCIBRS, law enforcement agencies report both incident and arrest data for Group A offenses but only arrest data for Group B offenses, which tend to be minor compared to Group A. Arrest practices and policies for the offenses presented in this section likely differ between agencies. In contrast, methods for the more severe Group A offenses are likely more uniform and consistent throughout all jurisdictions. As seen in the previous chapter, UCR procedures require that an arrest be counted on each separate occasion a person is taken into custody, notified, or cited, reflecting the total number of arrests made, not the number of individuals arrested. While incident details are not provided for Group B offenses, arrest counts can still give a valuable picture of crime in South Carolina by providing a measure of law enforcement's response to crime. Arrest rates offer estimates of criminal offenses such as liquor law violations or driving under the influence for which no victims are likely to report the behavior. The arrest counts are displayed in the following tables and charts, and arrest rates can be found in the 'Arrests by County' tables at the end of this chapter.

In total, there are 15 Group B offenses, which encompass all offenses not considered to be Group A. For this year's *Crime in South Carolina* publication, the arrest data for the following nine Group B offenses will be presented and analyzed: Contributing to the delinquency of a minor, disorderly conduct, driving under the influence, drunkenness, nonviolent family offenses, alcohol/liquor law violations, peeping tom, resisting arrest, and trespass of real property. The SCIBRS definitions for these crimes are covered in the Glossary.

2023 Facts at a Glance

- Most 'contributing to the delinquency of a minor' arrestees were male (65.1%). 34.9% were female arrestees. 49.1% of arrestees were White, and 48.4% were Black/AA, peaking in the 18-24 age range.
- Most disorderly conduct arrestees were male (70.9%). 42.1% were White males, and 27.6% were Black/AA males, peaking in the 25-34 age range.
- Most DUI arrestees were male (75.7%), with 50.0% being White males and 24.2% being Black/AA males, peaking in the 25-34 age range.
- Most drunkenness arrestees were White males (54.0%), peaking in the 25-34 age range, followed closely by the 35-44 age group.
- Nonviolent family arrestees were 41.9% female and 58.1% male. Arrestees were 56.6% White and 42.1% Black/AA. The male age range peaks at 35-44 and females peaked at 25-34.
- Most alcohol/liquor law arrestees were male (74.1%) with 44.4% being White males and 27.8% being Black/AA males. The age of arrestees peaked in the 18-24 range.
- 100% of peeping tom arrestees were males in 2023. 70.0% were White males and 30.0% were Black/AA males, peaking in juveniles under 18, followed by the 25-34 and 35-44 age groups.
- Most resisting arrest arrestees were male (78.7%) with 33.7% being White males and 44.1% being Black/AA males, peaking in the 25-34 age range.
- Most trespassing arrestees were male (75.7%) with 37.5% being White males and 37.6% being Black/AA males, peaking in the 35-44 age range followed closely by the 25-34 age range.

Arrests by County

The following tables graph and compare 2022 to 2023 arrest counts, calculating the percent change between the two years. This data is presented for South Carolina and then broken down individually by each county. The purpose of these tables is not to rank counties based on arrests or their response to crime but to provide estimates of criminal offenses within each county.

South Carolina Arrests **Population 5,373,555**

FAMILY & INTIMATE VIOLENCE

2023 Facts at a Glance

The statistics presented on this page were performed on crime counts, not rates. They do not consider change in subpopulations from 2022 to 2023. Any use of the data presented here without factoring in population and other variables would provide an incomplete analysis and false/misleading perceptions of the true nature of crime in South Carolina. This data is only meant to provide an at-a-glance trend analysis of domestic violence in South Carolina

Family Violence

- Murder by Family Member
  - 32.1% of victim-to-offender relationships were classified as child, 18.9% as other family member and 17.0% as sibling.
- Intimidation by Family Member
  - 27.4% of victim-to-offender relationships were classified as other family members, 25.0% as a parent and 20.9% as a sibling.
- Aggravated Assault by Family Member
  - 26.7% of victim-to-offender relationships were classified as child, 26.4% as other family members, 18.9% as sibling, and 18.3% as parent.
- Simple Assault by Family Member
  - 26.2% of victim-to-offender relationships were classified as parent, 23.4% as child, 20.0% as other family member, and 19.4% as a sibling.

Intimate Violence

- Murder by Intimate Partner
  - 58.2% of victim-to-offender relationships were classified as boyfriend/girlfriend, 26.4% as spouse, and 26.4% as child in common.
- Intimidation by Intimate Partner
  - 28.3% of victim-to-offender relationships were classified as boyfriend/girlfriend, 21.3% as ex-relationship, 19.5% as spouse, and 15.1% as child in common.
- Aggravated Assault by Intimate Partner
  - 42.8% of victim-to-offender relationships were classified as boyfriend/girlfriend, 16.8% as spouse, and 15.2% as child in common.
- Simple Assault by Intimate Partner
  - 43.4% of victim-to-offender relationships were classified as boyfriend/girlfriend, 22.2% as spouse, and 12.5% as cohabitants.

Intimate violence trends by victim-to-offender sex:

- Female victim/Male offender:
  - Intimate murder in this category decreased by 2.5%.
  - Intimate aggravated assault in this category decreased by 3.8%
  - Intimate simple assault in this category decreased by 1.6%.
  - Intimate intimidation in this category decreased by 4.2%.
- Male victim/Female offender:
  - Intimate murder in this category increased by 7.7%.
  - Intimate aggravated assault in this category decreased by 1.0%.
  - Intimate simple assault in this category slightly increased by 2.1%.
  - Intimate intimidation in this category decreased by 5.9%.
- Female victim/Female offender:
  - This category experienced a 0% change from 2022 to 2023 for intimate murders (1).
  - Intimate aggravated assault in this category increased by 4.9%.
  - Intimate simple assault in this category increased by 9.1%.
  - Intimate intimidation in this category decreased by 6.1%.
- Male victim/Male offender:
  - Intimate murder in this category increased from 0 in 2022 to 2 in 2023.
  - Intimate aggravated assault in this category increased by 19.9%.
  - Intimate simple assault in this category increased by 11.4%.
  - Intimate intimidation in this category decreased by 33.0%.

Family and Intimate Violence

This section examines murder, aggravated assault, simple assault, and intimidation involving victims and offenders who have either a familial or intimate relationship with one another. The victim-to-offender relationship might best be understood as describing who the victim of the assault was. For example, if the victim-to-offender link is "child," then the victim was the child, and the offender was a parent.

Familial relationships are defined here as child, stepchild, grandchild, sibling (brother or sister), stepsibling, parent, stepparent, grandparent, in-law, and other family members.

Intimate relationships include spouse, ex-spouse, common-law spouse, cohabitants, ex-cohabitants, child-in-common, boyfriend/girlfriend, and ex-boyfriend/ex-girlfriend.

This data is captured by reporting the relationship existing between the victim(s) and each offender involved in the incident. When an incident has multiple offenders, individual victims will be reported with various relationship types. Because an individual victim may be reported with various relationship types, any single victim could contribute to the number of victims for more than one relationship category. For example, suppose a victim was the child of one offender and the sibling of another. In that case, that victim will contribute both to the number of victims who were children of an offender and to the number of victims who were siblings of an offender. Because individual victims appear in multiple relationship types, the percentages in the tables that follow may add up to more than 100% of total victims.

In January 2017, SCIBRS began collecting cohabitants, ex-cohabitants, and child-in-common victim-to-offender relationships at the recommendation of the South Carolina Domestic Violence Task Force.

Also in January 2017, SCIBRS followed a recommendation by the FBI and instructed contributing agencies that same-sex victim/offender pairs should be listed under the corresponding intimate victim-to-offender relationship category. Previously, these relationships would have been reported under a dedicated same-sex relationship value. Due to this change and frequent requests for domestic violence trends pertaining to same-sex relationships, the 2021, 2022, and 2023 editions of *Crime in South Carolina* include a breakdown of intimate partner violence by victim to offender sex.

Lastly, in January 2019, SCIBRS started to collect ex-boyfriend/girlfriend victim-to-offender relationship as a new requirement set by the FBI. The links described with these new values would have previously been reported to SCIBRS under the boyfriend/girlfriend victim-to-offender relationship. The boyfriend/girlfriend relationship remains available to report current dating relationships that are more than casual.

Intimate Violence by Victim to Offender Sex

Historically, all same-sex relationship pairs were categorized under a same-sex relationship value; however, in 2017, at the recommendation of the FBI, all intimate partner violence began to be classified under the corresponding relationship value that fit best regardless of victim and offender sex. However, to address the needs of concerned stakeholders, most notably the many domestic violence organizations that have reached out to SCIBRS this past year, we have included a more in-depth breakdown of intimate partner violence that accounts for victim sex to offender sex. This also includes a five-year trend of intimate partner violence.

LAW ENFORCEMENT OFFICERS KILLED & ASSAULTED

2023 Facts at a Glance

*The statistics presented on this page were performed on crime counts, not rates. They do not consider any changes in the subpopulation of law enforcement officers from 2022 to 2023. Any use of the data presented here without factoring in population and other variables would provide an incomplete analysis and false/misleading perceptions of the true nature of crime in South Carolina. This data is only meant to provide an at-a-glance trend analysis for violence committed against law enforcement officers in South Carolina.

- ***Murder***
  - 0 law enforcement officers were feloniously killed in the line of duty in 2023. 11 were reported in the last ten years.
  - From 2014-2023, 70% of offenders were White males. The remaining 30% were Black/AA males.
  - From 2014-2023, the most common type of law enforcement action preceding the murder of an officer was responding to a disturbance and investigating suspicious person(s).
- ***Aggravated Assault***
  - Increased by 14.6% from 2022 to 2023.
  - 80.7% of known offenders were males, with 47.4% being Black/AA males and 32.0% being White males, peaking in the 25-34 age range followed by the 35-44 age group.
  - 40.9% of aggravated assaults against LEOs were committed using personal weapons (i.e., feet, hands, teeth, etc.), 16.5% with a motor vehicle as a weapon, and 14.4% with some sort of firearm.
  - 13.3% resulted in a significant injury with the remaining 86.7% experiencing either no injury (62.3%) or a minor injury (24.3%).
  - The most common type of law enforcement action preceding an aggravated assault was responding to a disturbance (26.2%), followed by attempting other arrest (19.8%). There was a 13.0% increase in aggravated assaults involving responding to a disturbance from 2022 to 2023.
- ***Simple Assault***
  - Increased by 18.7% from 2022 to 2023.
  - In 2023, 65.2% of known offenders were males with 27.1% being White males and 37.2% being Black/AA males, peaking in the 25-34 age range.
  - 66.4% of simple assaults against LEOs resulted in no injury. The remaining 33.6% incurred minor injuries.
  - The most common type of law enforcement action preceding the attack was responding to a disturbance (35.5%), experiencing an increase of 1.5% from 2022 to 2023.
- ***Intimidation***
  - Increased by 38.4% from 2022 to 2023.
  - 90.2% of known offenders were male with 52.3% being Black/AA males and 36.8% being White males, peaking in the 35-44 age range.
  - The most common type of law enforcement action preceding an intimidation incident was responding to a disturbance (42.1%), which saw an 11.8% increase from 2022 to 2023.

Violence Against Law Enforcement Officers

This chapter examines violence committed against active law enforcement officers in 2023 and provides a ten-year trend for each included offense. Violence in this context consists of murder, aggravated assault, simple assault, and intimidation committed against law enforcement officers serving in the line of duty. This information is derived from an agency's monthly SCIBRS submissions.

Murder

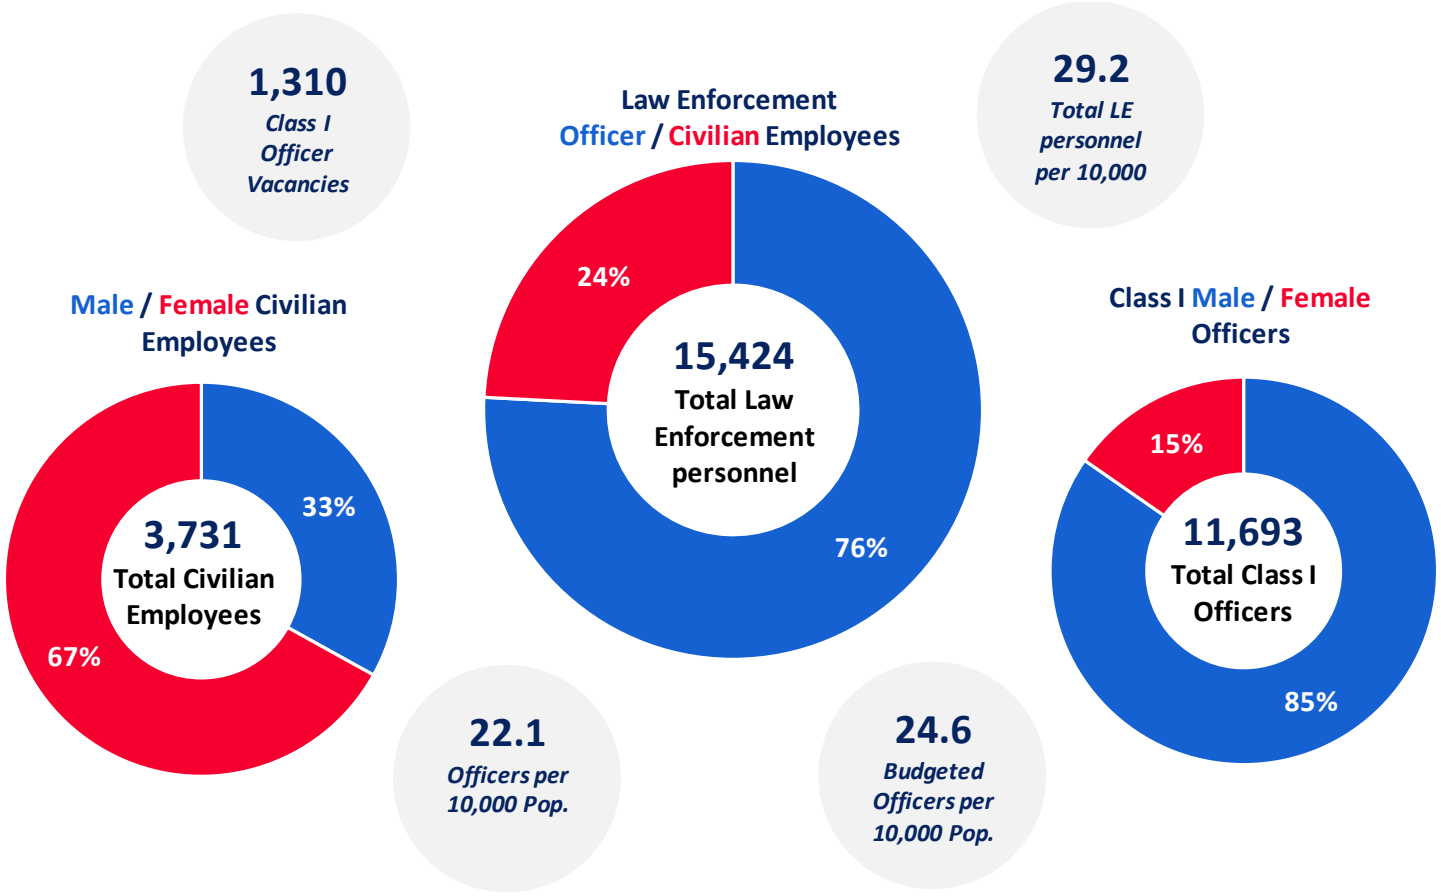
There were 202 intimidation incidents committed against South Carolina law enforcement officers in 2023. The most common type of law enforcement action preceding the attack was responding to a disturbance, followed by attempting other arrest. From 2022 to 2023, there was a 11.8% increase in intimidation incidents involving responding to a disturbance.

Full-Time Law Enforcement (FTLE) Counts

Each year, SLED's SCIBRS Unit gathers data on the number of full-time law enforcement (FTLE) personnel employed by law enforcement agencies (LEA) on behalf of the FBI's Uniform Crime Reporting (UCR) Program. Subsequently, the FBI publishes these counts on their publicly accessible Crime Data Explorer. The following statistics exclusively pertain to personnel whose salaries are funded solely from law enforcement resources. When referencing vacancies, we specifically consider the total number of vacant full-time Class I officer positions. For this collection, the FBI provides,

- **Officer counts** encompass all full-time, fully certified, Class I sworn personnel who possess full arrest powers, carry a weapon, and are compensated from law enforcement funds.
- **Civilian counts** encompass all full-time employees whose salary is derived from law enforcement funds but do not meet the criteria for Class I officers, as defined above. Civilians include dispatchers, clerks, meter attendants, correctional officers, detention center employees, Class III officers, and other personnel not Class I certified.

The FTLE counts serve to ensure accurate representation of each South Carolina LEA, facilitate data processing and inclusion in annual FBI publications, and contribute to the National Use of Force data collection and its associated data publications. Additionally, this data empowers law enforcement agencies, researchers, and the public with insights into the composition of LE personnel to foster a better understanding of an agency's workforce dynamics.



FBI's National Use of Force Data Collection

Law enforcement's use of force has been a topic of discussion for years, with several high-profile cases sparking heightened awareness. To combat the lack of data and information available surrounding this topic, the FBI launched the National Use of Force Data Collection for law enforcement agencies across the country to submit instances of use of force according to specified criteria. Utilizing a standardized definition of use of force allows citizens, researchers, law enforcement organizations, and other stakeholders to view use of force incidents from a nationwide perspective as well as allow for more accurate and reliable analyses on the subject.

The FBI classifies an incident as use of force if:

1. **A fatality** occurs due to a law enforcement officer's use of force,
2. **Serious bodily injury** occurs due to a law enforcement officer's use of force, or
3. **A firearm is discharged at or in the direction of a person** by a law enforcement officer.

The FBI bases their definition of serious bodily injury on 18 United States Code 2246(4). It is defined as involving a substantial risk of death, unconsciousness, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

In the event a law enforcement agency experiences an incident that meets the above use of force criteria, they must submit that incident and all related information to the FBI's Use of Force portal or through their state manager (UseofForce@sled.sc.gov). If an agency experiences a month with no qualifying use of force incidents, then they must submit a zero report to remain fully compliant. For an agency to be considered fully participating and compliant with the FBI's National Use of Force Data Collection, they must have submitted either an incident or a zero report for all 12 months in a year. The infographic on the following page highlights those agencies who have achieved full compliancy for this national data collection. Note that there are more agencies eligible to participate in Use of Force than SCIBRS. New agencies must go through a NIBRS testing protocol to ensure compliancy and compatibility with NIBRS/SCIBRS standards. There are also some organizations considered assisting agencies who have Class I officers that do not patrol or work cases, so since they have no qualifying data to submit to SCIBRS, they are excluded from those agencies required to participate. However, new and assisting agencies are still able to submit use-of-force incidents.

In future publications, we hope to provide a more in-depth analysis of South Carolina's Use of Force incidents. As a valued stakeholder, please feel free to submit any suggestions regarding this publication and the Use of Force Data Collection via the survey provided at the end of this publication.

2023 Law Enforcement Agencies Participating in Use of Force

Of the 283 law enforcement agencies in South Carolina eligible to report to the FBI's Use of Force Data Collection, 155 reported Use of Force data for all 12 months in 2023 (55%). Fully participating agencies are recognized below in bold blue. The remaining 128 agencies are missing anywhere from one to all 2023 Use of Force submissions. Using the full-time law enforcement counts collected by the SCIBRS unit and FBI, officers employed by participating agencies represent an estimated 78% of sworn Class I law enforcement officers in South Carolina in 2023. According to SLED and Census County estimates, the Use of Force data collected for 2023 covers roughly 82% of South Carolina's population.

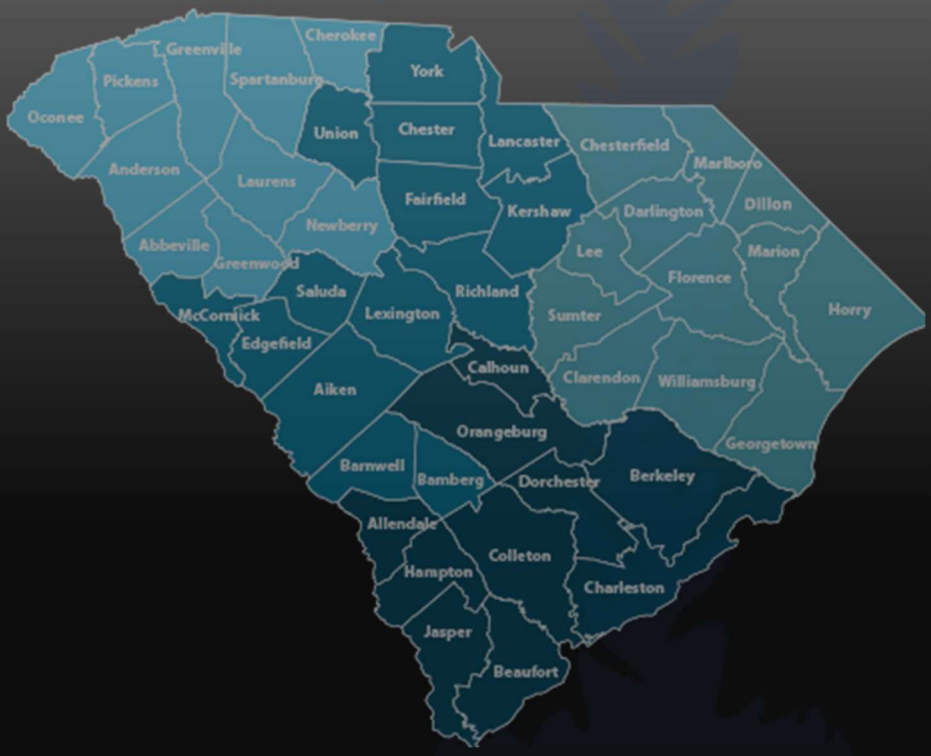
INDEX CRIMES BY COUNTY



Index Crimes by County

The following tables display raw data for the number of crimes in SC's eight index offense categories for 2022 and 2023. The data shows county totals and then breaks down each county by law enforcement agency. This information is not intended and should not be used to rank counties or agencies by crime level or response to crime. This is raw data, and any conclusions drawn from these tables should consider other factors that may influence crime in an area, such as education, poverty, employment opportunities, history, culture, age distribution, etc. Population should also be considered before accurate comparisons between or within jurisdictions can be made. Agencies designated as not fully compliant with SCIBRS for 2023 are represented in grey text. The data for those agencies, while incomplete, is still represented here for full transparency.

SCIBRS Offense Definitions

Aggravated Assault (13A): An unlawful attack by one person upon another wherein the offender uses a dangerous weapon or displays it in a threatening manner, or the victim suffers apparent severe or aggravated bodily injury, or where there was a risk for serious injury/intent to seriously injure.

Alcohol/Liquor Law Violations (90G): The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, or use of alcoholic beverages. Such violations may include operating without a liquor license, underage drinking, serving alcohol to a minor, bootlegging, operating a still, using a vehicle for the illegal transportation of liquor, etc.

All Other Larceny (23H): All thefts which do not easily fit any of the offenses included under specific Larceny/Theft subcategories identified in UCR. Examples would include thefts from fenced enclosures, boats, and airplanes, as well as the stealing of animals and farm/construction equipment.

Animal Cruelty (720): Intentionally, knowingly, or recklessly taking an action that mistreats or kills any animal without just cause, such as torturing, tormenting, mutilation, maiming, poisoning, or abandonment. Included are instances of duty to provide care, e.g., shelter, food, water, care if sick or injured; transporting or confining an animal to fight with another; inflicting excessive or repeated unnecessary pain or suffering, e.g., uses objects to beat or injure an animal. This definition does not include proper maintenance of animals for show or sport, use of animals for food, or lawful hunting, fishing, or trapping.

Arson (200): To unlawfully and intentionally damage or attempt to damage any real or personal property of another person or entity by fire or incendiary device.

Assisting or Promoting Prostitution (40B): To solicit customers or transport persons for prostitution purposes; to own, manage, or operate a dwelling or other establishment for the purpose of providing a place where prostitution is performed; or to otherwise assist or promote prostitution.

Betting/Wagering (39A): To unlawfully stake money or something else of value on the happening of an uncertain event or on the ascertainment of a fact in dispute.

Bribery (510): The offering, giving, receiving, or soliciting of anything of value (e.g., a bribe, gratuity, or kickback) to sway the judgment or action of a person in a position of trust or influence.

Burglary/Breaking and Entering (220): The unlawful entry into a building or some other structure to commit a felony or a theft.

Contributing to the Delinquency of a Minor (90P): Knowingly and willfully encouraging, aiding, causing, or influencing a minor to violate the law or to otherwise commit acts of juvenile delinquency. This is a South Carolina state specific offense and can include any act that led to a minor committing any act of juvenile delinquency.

Counterfeiting/Forgery (250): The altering, copying, or imitating of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered/imitated as that which is original or genuine, or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud.

Credit Card/Automatic Teller Machine Fraud (26B): The unlawful use of credit/debit card, credit/debit card number, or automatic teller machine for fraudulent purposes. This does not encompass the theft of a credit card, only its fraudulent use.

Destruction/Damage/Vandalism of Property (290): To willfully or maliciously destroy, damage, deface, or otherwise injure any public or private property without the consent of the owner or of the person having custody or control of it.

Disorderly Conduct (90C): Any behavior that tends to disturb the public peace or decorum, scandalize the community, or shock the public sense of morality.

Driving Under the Influence (90D): Driving or operating a motor vehicle or common carrier while mentally or physically impaired as the result of consuming an alcoholic beverage or using a drug or narcotic. In addition to the standard definition for motor vehicles, which is discussed in the section dedicated to motor vehicle theft, DUI also includes the impaired operation of airplanes, boats, trains, etc.

Drug Equipment Violations (35B): The unlawful manufacture, sale, purchase, possession, or transportation of equipment or devices utilized in preparing and/or using drugs or narcotics.

Drug/Narcotic Violations (35A): The unlawful cultivation, manufacture, distribution, sale, purchase, use, possession, transportation, or importation of any controlled drug or narcotic substance.

Drunkenness (90E): To drink alcoholic beverages to the extent that one's mental faculties and physical coordination are substantially impaired. It includes drunk and disorderly, common drunkard, habitual drunkard, and public intoxication. It does not include DUI or non-intoxication related disorderly conduct.

Embezzlement (270): The unlawful misappropriation by an offender to his/her own use for purpose of money, property, or some other thing of value entrusted to his/her care, custody, or control.

Extortion/Blackmail (210): To unlawfully obtain money, property, or any other thing of value, either tangible or intangible, through the use or threat of force, misuse of authority, threat of criminal prosecution, threat of destruction of reputation or social standing, or through other coercive means.

False Pretenses/Swindle/Confidence Game (26A): The intentional misrepresentation of existing fact or condition or the use of some other deceptive scheme or device to obtain money, goods, or other things of value. Only includes fraud offenses that do not fit any of the definitions of the specific subcategories of fraud. This offense acts as a catch all for fraud offenses and only includes frauds that do not fit into any other specific fraud category. Examples include renting a vehicle without returning it, not scanning an item at self-checkout, or misrepresenting information on an application for a firearm.

Family Offenses, Nonviolent (90F): Unlawful, nonviolent acts by a family member (or legal guardian) that threaten the physical, mental, or economic well-being or morals of another family member and that are not classifiable as other offenses, such as assault, incest, and statutory rape. Crimes that may fall under this distinction are abandonment, desertion, neglect, nonsupport, nonviolent abuse, the nonpayment of court-ordered alimony, and any nonviolent cruelty towards other family members.

Fondling (11D): The touching of the private body parts of another person without consent for the purpose of sexual gratification, including instances where the victim is unable to give consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity.

Gambling Equipment Violations (39C): To unlawfully manufacture, sell, buy, possess, or transport equipment, devices, and/or goods used for gambling purposes.

Hacking/Computer Invasion (26G): Gaining access to another person's or institution's computer software, hardware, or networks without authorized permission.

Identity Theft (26F): Wrongfully obtaining and/or using another person's personal data (e.g., name and date of birth, Social Security Number, driver's license number.)

Impersonation (26C): Unlawfully representing one's position and acting in the character or position to deceive others and thereby gain a profit or advantage or enjoy some right or privilege.

Incest (36A): Nonforcible sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.

Intimidation (13C): To unlawfully place another person in reasonable fear of harm through the use of threatening words and/or other conduct without displaying a dangerous weapon or subjecting the victim to actual physical attack.

Kidnapping/Abduction (100): The unlawful seizure, transportation, and/or detention of a person against his/her will or of a minor without the consent of his/her custodial parent(s) or legal guardian.

Motor Vehicle Theft (240): The theft of a motor vehicle

Murder/Nonnegligent Manslaughter (09A): The willful (nonnegligent) killing of one human being by another.

Negligent Manslaughter (09B): The killing of another person through gross negligence.

Operating/Promoting/Assisting Gambling (39B): To unlawfully operate, promote, or assist in the operation of a game of chance, lottery, or other gambling activity.

Peeping Tom (90H): To secretly look through a window, doorway, keyhole, or other aperture for the purpose of voyeurism.

Pocket-Picking (23A): The theft of articles from another person's physical possession by stealth where the victim is not immediately aware a theft occurred.

Prostitution (40A): To engage in commercial sex acts for anything of value.

Purchasing Prostitution (40C): To purchase or trade anything of value for sex acts.

Purse-Snatching (23B): The grabbing or snatching of a purse, handbag, etc., from the physical possession of another person. If the victim resists and the offender uses force to overcome the victim, this becomes a robbery.

Rape (11A): The carnal knowledge or sexual penetration of a person, without the consent of the victim, including instances where the victim is unable to give consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity. Because of the way this definition is written, both males and females can be the victim of rape, but at least one of the offenders is required to be the opposite sex of the victim.

Resisting Arrest (90N): Knowingly and willfully opposing or resisting an arrest being made by a law enforcement officer.

Robbery (120): The taking of anything of value from the control, custody, or care of another person by force or threat of force and/or by putting the victim in fear of immediate harm.

Sexual Assault with an Object (11C): To use an object or instrument to unlawfully penetrate, however slightly, the genital or anal opening of the body of another person, without the consent of the victim, including instances where the victim is unable to give consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity. The object can be anything used by the offender that is not their own genitalia.

Sexual Exposure (36C): The unlawful exposure of a person's sexual organs or other private parts for the purpose of sexual gratification.

Shoplifting (23C): The unlawful taking of goods or merchandise exposed for sale by a person (other than an employee). This offense implies that the offender had a legal right to enter the premises.

Simple Assault (13B): An unlawful physical attack by one person upon another where neither the offender displays a dangerous weapon, nor the victim suffers obvious severe or aggravated bodily injury such as apparent broken bones, loss of teeth, possible internal injury, severe laceration, or loss of consciousness.

Sodomy (11B): Oral or anal sexual intercourse with another person, without the consent of the victim, including instances where the victim is unable to give consent because of his/her age or because of his/her temporary or permanent mental or physical incapacity. This covers instances where the offender(s) and victim(s) are the same sex.

Sports Tampering (39D): To unlawfully alter, meddle in, or otherwise interfere with a sporting contest or event for the purpose of gaining a gambling advantage. This offense would include bribery if done for the purpose of gambling.

Statutory Rape (36B): Nonforcible sexual intercourse with a person who is under the statutory age of consent.

Stolen Property Offenses (280): Buying, receiving, possessing, selling, concealing, or transporting any property with the knowledge that it has been unlawfully taken, as by burglary, embezzlement, fraud, larceny, robbery, etc.

Telephone Calls/ Obscene, Harassing (753): The unlawful use of telephones for harassment.

Theft from Building (23D): The unlawful taking of items from within a building which is either open to the general public or to which the offender has legal access, such as from a church, restaurant, school, etc.

Theft from Coin Operated Machine or Device (23E): The unlawful taking of items from a machine or device that is operated or activated by coins or other currency, including a vending machine, parking meter, etc.

Theft from Motor Vehicle (23F): The unlawful taking of any article not considered an integral part of the vehicle from any area of a motor vehicle locked or unlocked.

Theft of Motor Vehicle Parts or Accessories (23G): The unlawful taking of any part or accessory affixed to the interior or exterior of a motor vehicle in a manner which would make the item an attachment of the vehicle or necessary for its operation.

Trespass of Real Property (90J): To unlawfully enter land, a dwelling, or other real property.

Using Motor Vehicle Without Consent (756): The taking of a vehicle for temporary use without the expressed consent of the owner, when prior authority has been granted or can be assumed, such as in family or roommate situations, or unauthorized, temporary use by chauffeurs and others having access to the vehicle.

Weapon Law Violations (520): The violation of laws or ordinances prohibiting the manufacture, sale, purchase, transportation, possession, concealment, or use of firearms, cutting instruments, explosives, incendiary devices, or other deadly weapons.

Welfare Fraud (26D): The use of deceitful statements, practices, or devices to unlawfully obtain welfare benefits. This includes the fraudulent use of government-sponsored cash cards (e.g., EBT cards).

Wire Fraud (26E): The use of an electric or electronic communications facility to intentionally transmit a false and/or deceptive message in furtherance of a fraudulent activity. This type of fraud applies to incidents where telephones, computers, e-mails, etc., are used in the commission or furtherance of a fraud, excluding instances of hacking or computer invasion. An example would include the use of a computer to buy something from a fraudulent website and never receiving it.

THANK YOU

To everyone that made this year's Crime in South Carolina publication possible. As always, we hope to increase the number of agencies fully complying with South Carolina's UCR Program for future publications and urge any agencies listed as not fully compliant to reach out to our SCIBRS team!

Furthermore, to ensure that the annual Crime in South Carolina (CISC) publication meets the needs of all stakeholders, SLED's SCIBRS unit would appreciate your input. Below is a QR code that will connect you to a short survey. Your responses will significantly assist in ensuring that the information presented in this publication provides valuable and relevant data in an easily understood and helpful format. The SLED SCIBRS team would be more than happy to schedule an in-person, phone, or virtual meeting to discuss your individual CISC needs, assist with getting your agency up to date on their SCIBRS submissions, or simply answer any questions you may have. You may also reach out to our team for any additional data requests or trends. Feel free to contact our SCIBRS staff by email at SCIBRS@sled.sc.gov or by phone at 803-896-5961.
