STATEMENT OF CONSENT AND PRIVACY STATEMENT

I understand that the answers provided on this form are correct to the best of my knowledge and belief. I fully understand that my answers are important to the evaluation of my kindred relationship to missing or unidentified persons.

Realizing that DNA may be extracted from my body fluid samples and used to assist in the identification of a kindred family member, I freely agree to donate my body fluid(s) for DNA analysis and for that analysis to be included in the National Missing Person DNA Database maintained by the Federal Bureau of Investigation (FBI) under authority of Title 42, United States Code, Section 14132.

I freely and voluntarily consent to provide the South Carolina Law Enforcement Division (SLED) and the FBI with body fluid(s) sample for DNA analysis and entry into the National Missing Person DNA Database. I hereby waive any and all claims against SLED, the FBI and any of their employees for any medical complications or other injuries that may arise from providing these samples. The DNA analysis information will be released only to criminal justice agencies for identification purposes of individuals indexed in the missing persons database. Investigative agencies having online access to the missing persons database may search the DNA analysis for DNA matches. If a match is found information may be released to that agency in support of the purpose for which it was collected, as well as other lawful uses as provided by the Privacy Act notices for the National DNA Index System and the FBI's Central Records System, as most recently published in the Federal Register.

I understand that I am not required or obligated to provide a DNA sample and my consent to have a DNA sample taken is knowingly and voluntarily made.
